

## Description

A phenylalanine-free liquid containing a balanced mixture of the other essential and non-essential amino acids, vitamins, trace elements and some minerals.. Available in two sizes, containing 10g and 20g protein equivalents (PE). Available in Berry flavour.

## Indications

For use in the dietary management of proven PKU in children four years and over and adults, including pregnant women.

## Preparation and administration

Water or diluted drinks should be offered/taken at the same time as PKU Lophlex LQ. PKU Lophlex LQ is best served chilled. Shake vigorously before use.

## Administration guidelines

The dosage should be determined by a clinician or dietitian only and is dependent on the age, body weight and medical condition of the patient. The daily intake of protein substitute should be taken in divided doses throughout the day.

## General precautions

Use under medical supervision. Not for parenteral use. Not suitable for use as a sole source of nutrition. This product should not be used as a sole source of protein but must be given in conjunction with a protein source, to supply the phenylalanine, fluid and general nutrition requirements of the patient in quantities as prescribed by a clinician or dietitian. Only intended for use by patients with PKU.

## Storage

Store at room temperature away from sunlight. Part consumed pouches can be stored in the refrigerator for up to 24 hours.

## Pack size

30 x 125ml – PKU Lophlex LQ 20.

60 x 62.5ml – PKU Lophlex LQ 10.
